STARTUP STAIRS

Hi Aadil,

Congratulations!

We are pleased to inform you that your startup has been **selected for Phase 1** of the Startup League program.

As we now move shortlisted startups into the **Phase 2 evaluation** process, please complete the required documentation and upload your Startup Stairs Scorecard along with the following information:

- **Startup Stairs Scorecard** – Required for Phase 2 evaluation
- **Your startup details** – Complete the required form
- **Pitch deck** – If not already provided
- **Company logo** – If not already provided

Important: Phase 2 evaluations are now being processed, and priority will be given to startups that have completed their documentation and uploaded their Scorecard.

Startups that do not upload the Scorecard within the required timeline may have their evaluation placed on hold and could miss consideration for the upcoming Phase 2 shortlist and subsequent investor-readiness opportunities.

The Scorecard allows our team to assess your startup across key parameters including traction, market opportunity, business model, financial readiness, scalability and overall investor preparedness.

We therefore strongly recommend completing your Scorecard and submission at the earliest to ensure your startup remains active in the evaluation process.

We look forward to reviewing your venture for the next stage of Startup League.

[Complete Your Application](#)

Warm regards,
Startup League Team
